EMERGENCIES

CENTRAL AFRICAN REPUBLIC

WFP assisted more than a million people forced to flee their homes due to breakdown of law and order.

IRAQ

Conflict across the country in the summer of 2014 triggered widespread internal displacement and overwhelming humanitarian needs. WFP responded by providing food assistance to some 2.2 million people.

PHILIPPINES

WFP provided more than a million people with food and cash following the Super-Typhoon Haiyan that smashed into the Philippines archipelago in 2013 and posed a logistics challenge requiring massive mobilisation of resources.

SOUTH SUDAN

Conflict pushed millions into food insecurity in the world's newest country. Even before the conflict, WFP was assisting more than 2 million people.

SYRIA

The Syrian Regional Emergency continued to be WFP's largest and most complex operation. WFP provided food for as many as 4.9 million people inside Syria and assisted more than a million refugees in neighbouring countries.

WEST AFRICA

The 2014 Ebola epidemic was the largest in history, affecting multiple countries in West Africa - Guinea, Liberia, Sierra Leone. In response, WFP provided critically needed food to more than 2 million people, logistics expertise to humanitarian agencies and built treatment centres in the three countries.
